Rugged Mobile Computing Solutions

## MEDIA ALERT

### GETAC PRESENTS ITS LATEST TECHNOLOGY INNOVATIONS FOR THE DEFENCE SECTOR AT EUROSATORY 2024 IN PARIS

*Get your hands on Getac's powerful and state-of-the-art rugged computing solutions designed for land, sea and air defence professionals in Hall 5a, Stand J357*

**TELFORD, 4 June 2024:** Getac, a leading global manufacturer of rugged technology for the defence sector, is delighted to announce its participation at Eurosatory 2024, from 17-21<sup>st</sup> June at the Paris Nord Villepinte Exhibition Centre, France.

Fifty-five years after its creation, **Eurosatory** is the **essential global event for Defence & Security professionals**. Offering a unique opportunity to meet manufacturers and start-ups from all over the world, along with public and private Defence & Security market players; exchange with the best experts, governments and their administrations, international institutions and NGOs; attend high-level conferences, and discover the latest technological advances and upcoming trends in the sector.

As part of its ongoing commitment to helping defence professionals meet the challenges of today and tomorrow, **Getac will showcase its latest rugged solutions, some of them being showcased for the first time at Eurosatory 2024.** This will be the perfect opportunity to exchange views with our experts on the challenges and opportunities of AI, robotisation

and equipment modernisation on a backdrop of unprecedented geopolitical upheaval and climate challenges.

During the five days of Eurosatory 2024, visitors will have the chance to discover and get to grips with some of Getac's latest mission-critical rugged innovations such as:

- **Getac X600 & X600 Pro**, the rugged mobile workstation, designed to deliver comprehensive mobile command computing, control and planning workflows.
- **Getac B360 & B360 Pro**, 13.6" fully mobile rugged laptop range that's built to perform.
- **Getac ZX80**, the fully rugged Android tablet designed to be a built-for-AI powerhouse.

"In a post-pandemic and geopolitical context marked by ongoing tensions, Getac continues to seek innovative solutions to help defence professionals meet current and future challenges," said Paul Waddilove, Managing Director - UK & Nordics at Getac.

Always keen to offer comprehensive solutions, Getac will be accompanied on the booth by some of its eco-system partners. Visitors will be able to discover data-at-rest hardware encryption solutions from **VIASAT** and **PRIM'X** full-disk encryption software solutions to secure data; **SCOPEX** will also be present with an innovative portable inspection system for mobile radiography of suspicious objects.

## About Getac
